Dear Sunil,

Greetings from KasperTech. We are pleased to inform you that you have been selected for the role of **Full Stack intern** at KasperTech. Your working period will be of 1 Month starting from August 8, 2022 which will be subject to extension. Your day to day roles and responsibilities will include:

1. Work as part of a team under the instructions of project manager whilst developing applications and services using agile development methods
2. Working on development with MongoDB
3. Creating APIs for the back-end services as per requirements
4. Code, test, and operate Node.js based services
5. Work on implementation of security and data protection
6. Work on integration of data storage solutions (may include databases, key-value stores, blob stores, etc.)
7. Improve and test the code continuously for any bugs
8. Creating responsive front-end applications using React.js
9. Working on integration and implementation of HTML, CSS, and/or JavaScript apps into React.js apps

You will have to give a daily work report on slack.

Hoping to have you on board!
